THE German steamer I acific, which arrived here to-day (14th) from the South Sea Islands, gives the following interesting report concerning the loss of the schooner Lily :-

Left Malupi, New Britain, 19th Bept. bound for Hongkong via Caroline Islands. Light westerly winds and fine weather. Reached Onbai Group on the 25th, experienced hard westerly squalls and dirty weather. While at anchor in this Group, a native brought a bottle which he had found on the beach about the middle of July: it contained report of barque Alexa, of Wellington, N. Z., 51 days from Port Chalmers to Hongkong. Weighed on the 29th and arrived at Yap on the 2nd of October. Found here Capts. O'Keefe and Keats, who after having lost their schooner Lily on Kosil Reef, Pelew Island, had crossed over to Yap in a boat. Capt. O'Keefe had despatched his junk Wrecker to the Pelew Island to bring up the crew of the Lily, and intended then to start for Hongkong. The wreck of the Life was said to have fallen into the hands of the natives of the Northern part of the Pelew group, who, being at war with Corror where O'Keefe has his trading establishment. took possession of everything saved from the vessel. THE following telegram we published before but in a somewhat mutilated form :-

Simla, September 16 .- An account given by one of Ayub's officers present at the action of Maiwand represents that a stand was made by a remnant of the 66th Regiment round the colours in an enclosure near the field. The informant estimates their number at about 100, and states that they were surrounded by the whole army, and that when all but eleven were killed these made a desperate charge and perished fighting bravely to the last man. He confirms the previous report that the loss of Ayub's troops from Herat exceeded 1,200, and that Stevenson, h Charley, the dead Ghazis were not counted. Supplies are coming in from more distant

THE CHINA REVIEW.

THE widely expressed regret at the discontinuance of Notes & Queries on China and Jupan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes, and Queries on the Far East, is issued at intervals, of two, months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcute, die, should the papers published. domand, and the circulation justify, such

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mangolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects, upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, Freich, Gorman, Spanish, Italian or Portuguese, are admissible. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learn; ed societies should subscribe to this acholarly and interprising Review. Christian Advocate (U.S.) Tribner's Oriental Record contains the following notice of the China Review :- "Tols is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. Thepresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, aptiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information; rendering some such channel of pub- lars, Optical Instruments, Mordan's licity as is now provided extremely desir- Pencil-cuses, &c .- John Noble, agent able; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, | and Sportsman's Requisites of all descripamong whom a high degree of Chinese | tions - WM. In a paper on Dr. Legge's She King, by the Rev. E. J. Litel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness. of style; and an account of the career of the Chinese poet statesman of the eleventh century, Su Tung-p'o, by Mr. E. G. Bowra, is not-only historically valuable, busing along distinguished by its literary graces. Bearing notices of new books relating to China and the Last, which will be a uneful feature of the Review, il carried out with punctually and detail, we are glad to notice that "Notes " and "Queries are destined to find a place in its pages also. It is to be hoped that this opining for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predocessor in the field, and that the China Heview may receive the support necessary to insure its continuance. The publication is intend ed to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports. It is the first Chinese Newspaper ever. issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing. The projectors, busing their estimates upon the most reliable information from the various Ports in China and Japan,-

from Australia, California, Singapore, Penang, Salgon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of The field open to a paper of this descrip

Money Order Regulations.

1.- Money Orders are exchanged with the United Kingdom, New South Walr Queensland, South Australia and Pc Darwin, the Straits Settlements, Western Australia, and (except at Shanghai) with the Japanese Empire. Hongkong also issues orders on Shanghai, and vice versa. 2.—Small sums may be remitted between the other Ports by means of Postage Stamps, subject to a charge of one per cent, for cashing them.

3.—Many Money Orders are supplied to residents at the smaller Ports in this way. An application for an order* is filled up, and is enclosed with a stamped, directed, and unsealed envelope to the Postmaster at the nearest issuing reflection. The application must be accompanied with the full amount (including commission) in cheque, postage stamps, or other equivalent of cash, and a little margin should be left for variations of exchange. The Postmaster issues the order, sends it on in the envelope, and returns the change, if any, by first opportunity, with a receipt for the letter, if it were to be registered, as it always should be. Care should be taken to send these applications in time, as the Money Order Offices close some hours before the depar-

tures of the mails. 4. No order must exceed £10, or \$50, or include any fraction of a penny, nor will more than two such orders be issued to the same person, in favour of the same payee, by the same mail. Orders will be drawn at the current rate of the dayt and paid at the rate of the day when the advice arrived.
